

SOCIAL and PERSONAL

All social roads in Richmond turned toward the Woman's Club last afternoon, where 5 o'clock tea was rendered a delightful function by the presence of the largest number of callers that the autumn season has brought together in the club parlors, except on the recent occasion of Mr. John H. Powell's piano recital, the memorable opening event of the club season.

Animated and handsomely gowning groups of ladies surrounded the coffee and tea tables, where the gleam of pretty silver and the sheen of snowy linen caught the eye most attractively. At the coffee table Mrs. James D. Crump and Miss Madge Freedy were the hostesses. Mrs. Norman Savage, secretary, Lucile Story, of Blackstone, and Miss Mary Josephine Slater presided at the tea table.

The parlors were decorated with crimson dahlias and goldenrod, arranged in a very artistic manner.

Pollard, of this city, and counts his Richmond friends by the score. He has been very successful in the practice of his profession as a lawyer since his location in Baltimore.

Miss Jones is a young lady of charming personality, which has rendered her

? AND ANSWER.

"How Can You Conscientiously Claim to Cure Kidney Disease when Physicians Tell You That There is No Efficacious for Infamed Kidneys?"—Druggist.

That very fact led to this treatment.

When the late John J. Fulton was told by Dr. Toland that he had chronic kidney disease, it did not at first disturb him, for there were not scores of kidney medicines and many wonderful cures.

But there was a profound awakening. It was explained that none of them would help him. And he discovered that the medicines performed by kidney medicines (so-called) were during the early formative period of the disease, in which it commonly gets well by itself, and that the books really knew nothing that would reach the kidneys at any stage of kidney disease, either first or last. Then what about the so-called diuretics and kidney medicines?

They excite the kidneys, but this does not reduce inflammation in the kidneys, rather the reverse, as the increasing death show, and physicians seldom use them.

The urgent necessity for something that would palliate inflamed kidneys, and thus be a real specific for inflammation was apparent. Starting out in a new direction, Fulton evolved an emollient for inflamed kidneys, the very thing that the question at the head of this article calls for. And inflammation of the kidneys which is the real difficulty with kidney-troubled people, is for the first time in the world really curable. To get this emollient, ask for Fulton Remedy Compound.
